*Parents and family members may not sign forms to verify community service. Service must be performed outside of the home and may not be completed solely to benefit a family member or family business (e.g., household chores). This is because service within the household is a basic expectation of family life, and this requirement is intended to push students toward exemplary service to their community. Community Service is defined as volunteer service for an approved non-profit organization. **Forms must be submitted within 30-days of participating in a community service activity.**
