

ELEMENTARY SCHOOL SUPPLY LIST INSTRUCTIONS

As we look ahead to the upcoming school year, we want to extend a warm welcome to you and your family. We are eagerly anticipating a year filled with growth, discovery, and meaningful learning experiences.

To help ensure a smooth and successful start, we ask that you please review the school supply list specific to your child's grade level. These items have been carefully selected to serve as essential tools for daily learning in the classroom. As you begin gathering these materials, we kindly ask that you keep the following guidelines in mind:

- **Please label all school supplies** with your child's first and last name prior to the start of the school year. This practice not only helps with organization but also fosters a sense of ownership and responsibility.
- We encourage families to keep in mind that **school supplies are tools of learning rather than toys**. When selecting items, please avoid novelty or decorative versions that may be distracting or less functional. Specific guidelines and examples have been provided to assist you in choosing items that will best support your child's success in the classroom.
- 3rd-6th grade students: Please evenly **distribute the clear sheet protectors** amongst the colored plastic pocket folders by adding them to the metal prongs.
- Any **extra supplies** not needed for immediate use (such as additional pencils, glue sticks, or crayons) should be placed in a **gallon-sized ziplock bag labeled with your child's name**. These items will be stored at school and used as needed to replenish your child's materials throughout the year.
- **Please preload your child's pencil box** with the following items that you have gathered from your list:
 - A pair of scissors
 - Three pre-sharpened pencils
 - Highlighters (if applicable)
 - Pens-one of each color (if applicable)
 - One pack of colored pencils
 - One eraser (if applicable)
 - One glue stick
 - One dry erase marker
 - **One-quarter of their felt sheet** (students will use a fresh section each quarter so please precut the sheet into 4 rectangles)

Beyond their practical use, school supplies will serve as a foundation for teaching important aspects of our school culture. Throughout the year, students will learn to take responsibility for their personal materials, maintain organization, and develop academic habits that support long-term success.

Thank you for your attention to these details and for your continued support. We are looking forward to partnering with you to ensure we all have an amazing year filled with growth, learning, and joyful moments. We look forward to receiving you and these supplies at our Back to School Open House on August 14, 2026.
